

Implementing and Auditing Environmental Management Systems

This five day course provides participants with the core competencies to both implement and audit environmental management systems that ensures they meet requirements of ISO 14001.

Upon successful completion of this course participants will have gained the following knowledge and skills and be able to:

- Understand the intent and requirements of ISO 14001 and how to meet them
- Use environmental management tools such as aspect and impact evaluation to identify how an organisation's processes can impact on ecosystems
- Set up an EMS and document procedures to identify methods of environmental protection and assist in ensuring legal compliance
- Use monitoring and measurement techniques to evaluate effectiveness of your EMS
- Establish audit objectives, scope and criteria
- Schedule audits and develop site audit plans and audit guidance tools
- Organise and direct audit team members
- Gather objective evidence using interviewing, observation and sampling techniques
- Analyse and interpret information to determine conformance with requirements
- Report audit findings, prepare audit reports and undertake follow-up.

Suitable for

Those involved in developing environmental management systems, or those carrying out audits of environmental management systems and looking to gain formal recognition of their knowledge and experience.

Introduction to ANDSAM Training

Partnering with

The New Zealand Quality College offers this course in partnership with ANDSAM Training, which provides training and assessment services specialising in the development, implementation and auditing of management systems.

ANDSAM Training is an Exemplar Global approved training provider and this course has been structured to address the elements of competency required under the Exemplar Global competency units:

- Exemplar Global-EM *Auditing Environmental Management Systems*
- Exemplar Global-AU *Auditing Management Systems*
- Exemplar Global-TL *Leading Management Systems Audit Teams*.

Upon successful completion of the course, participants will receive a Certificate of Attainment and be eligible to become a *Provisional Environmental Management Systems Auditor* under the Exemplar Global (RABQSA) Auditor Certification Scheme. **NB.** If you believe that you have already acquired some or all of the competencies through training, work or life experience, you can apply to ANDSAM Training for Recognition of Current Competence (RCC).

Activities and Assessment

All training features assessment activities comprising a mix of practical exercises, case studies and written knowledge based assignments

Presenters

The team of trainers is led by Andrew Schofield and Robert Crowe, who have been consulting and auditing for over 20 years in organisations from small businesses to large multinationals throughout Australasia, South East Asia, the United Kingdom and Europe.
