

Quality Management Systems Implementation

This three day course provides participants with the core competencies to implement quality management systems to meet the requirements of the ISO 9001 standard.

Upon successful completion of this course participants will have gained the following knowledge and skills and be able to:

- Apply quality management principles
- Understand the terminology, intent and how to meet the requirements of ISO 9001
- Set up quality management systems to improve organisational effectiveness
- Identify and produce required documentation using the process approach and know how to implement it
- Evaluate the implementation and effectiveness of the quality management system.

Exemplar Global Recognition

When combined with the Exemplar Global-AU *Auditing Management Systems* competency unit, this course qualifies participants to become a Provisional Quality Auditor under the Exemplar Global Auditor Certification Scheme.

Prerequisites

Whilst not essential, it would be advantageous to have some knowledge of management systems and Standards.
